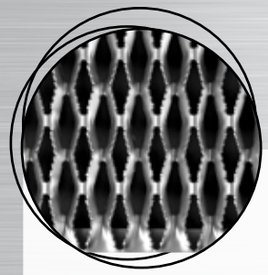
Grating systems
that support
safe work areas
and walkways.



AGGRESSIVE GRIP™

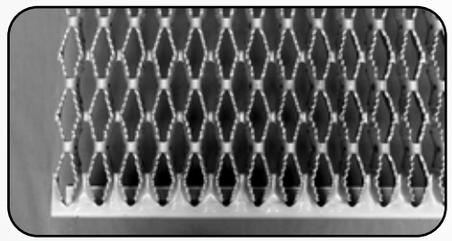
Long lasting and easy to install

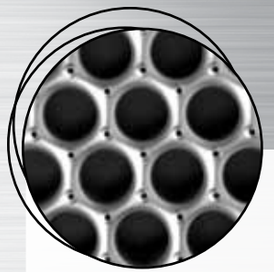
Materials: HRPO Steel, Pre-Galvanized Steel, Stainless Steel, Aluminum
Design: Serrated, slip-resistant, "diamond" pattern
Applications: Channels, walkways, stair treads
Benefits:

- Slip-resistant ideal for inside or outside locations where snow, ice, grease, oil and detergents create hazardous walking conditions
- Allows for drainage of fluids, chips, grease and mud
- Long life span, requires little maintenance
- Light, easy-to-handle planks allows for simple installation

Sizing:

Diamonds Wide	Width	Length
2	4 ¾"	Standard lengths of 10' or 12' available for each. Custom cut lengths available up to 12' in half or full diamond increments. Height 1½" or 2".
3	7"	
4	9 ½"	
5	11 ¾"	
8	18 ¾"	
10	24"	





DEBOSSED ROUND GRIP™

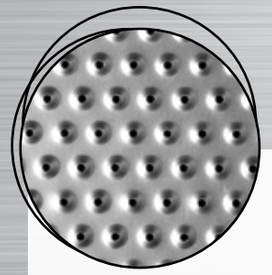
Versatile with maximum drainage

Materials: HRPO Steel, Pre-Galvanized Steel, Stainless Steel, Aluminum
Design: Debossed holes, clean ends, flexible pattern
Applications: Channels, walkways, stair treads, platforms
Benefits:

- Debossed holes provide maximum drainage of fluids, mud, chips, debris
- Safe, non-slip surface ideal for out side or inside locations
- Long life-span requires little maintenance
- Heavy load-carrying capacity with minimal deflection
- Flexibility in width, length, pattern-spacing
- Light, easy-to-handle planks allow for simple installation

Sizing:

Holes Wide	Width	Length
2	5"	Standard lengths of 10' or 12' available for each. Height 1½" or 2".
3	7"	
5	10"	
6	12"	
10	18"	
13	24"	



BUTTON GRIP™

Functional and durable

Materials: HRPO Steel, Pre-Galvanized Steel, Stainless Steel, Aluminum
Design: Perforated button tread pattern
Applications: Stair treads, ladders
Benefits:

- Perforated buttons allow slip resistance in all directions and all weather conditions
- Long life span requires little maintenance

Sizing:

Width	Length
7"	10' or 12' custom lengths available. Height 1½" or 2". Custom options available.
10"	
12"

LADDER RUNGS

Materials: HRPO Steel, Pre-Galvanized Steel, Stainless Steel, Aluminum
Design: Perforated button tread pattern
Applications: Stair treads, ladders, covers over slippery pipes/bars
Benefits:

- Perforated buttons allow slip resistance in all directions and all-weather conditions
- Long life span requires little maintenance
- Adaptable to a wide range of applications

Sizing:

Width	Length
1¾"	60" or cut to length. 2, 3, and 4 Button available.
1⅝"	
2¼"
